APPROVAL

OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of livestock served from the waters of this source. The State retains the right to regulate the use of the water herein granted at any and all times but does not take responsibility for the use of the Federal range.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued with the express condition that a valve be installed and maintained to prevent waste of water.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and

not to exceed..... 0.031 cubic feet per second or sufficient to water
1,000 head of cattle.

Work must be prosecuted with reasonable diligence and be completed on or before..... March 18, 1989
